Comments

Submission Type:
Customer objects to the Planning Application.

Comments:
A projecting sign on the first floor would spoil the appearance of the front of the building. When approaching from North Street the building has a pleasing appearance in keeping with the houses 59 and 57. There is no need for a projecting sign for customers approaching from North St as it is obvious where the business is located. This is primarily a residential street and obvious signs for the very few businesses are out of keeping with the road. Neither the architects nor the dental business (opposite the vet) have obtrusive signs.
