Dear Sir/Madam

I am writing to place an objection to the proposed two-storey building application at the back of 2 First Avenue, Lancing. As well as being inappropriate for the back alley for Grand Avenue/First Avenue (I'm not aware of any other building as large as this in the vicinity) the "Design, appearance, materials, character" are inappropriate, because at two storeys high, the "Overlooking, loss of privacy and light" will be very intrusive for those of us with back gardens at this end of Grand Avenue.

I would add that on-street parking is already at saturation point on the adjoining Second Avenue with vehicles parked up on the grass banks almost permanently. This will only add to traffic problems in the area.

Yours sincerely

M. Slide
