Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

N/A

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

4no. small urban trees are proposed within the scheme, as well as shrub planting, an area of wildflower grassland and green roofs. None of the habitat provision is required for another scheme that can only count towards BNG in part.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

All trees are to be retained on-site, with 3no. to be relocated. These will be protected during construction as per best practise. Where possible as much of the existing grassland on-site will be retained.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes
☐ No

4.6 How will you achieve the target net gain percentage?

☒ On-site
☐ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

☐ Yes
☒ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

N/A

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

N/A

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).

N/A

4.12 Do you have a habitat management and monitoring plan?

☐ Yes
☒ No

4.13 Have you used the statutory biodiversity metric tool?

For example, access issues, weather, or seasonal constraints.

Due to the field survey consisting of only one site visit, and during the winter season certain species, particularly some of the flowering plants, may not have been visible and hence overlooked. These are accepted constraints associated with the UKHabs Survey Methodology.
