Dear Sir/Madam

Re: Overhanging Trees and vegetation – Verge at Elm Grove, Lancing

During a recent inspection, it was noted that the trees and vegetation on your land, north of the Fire Station on the west side of the road are hanging into the carriageway. In addition, at least one of the trees appears to be dead and could be within falling distance of the carriageway.

We would therefore be grateful if you would take prompt action to arrange an Arboriculturist's health and safety assessment of these trees with works taken to cut back where necessary.

It is the responsibility of the Landowners/occupiers to prevent their vegetation from interfering with the use of the highway and as part of its duties the County Council carries out regular highway inspections to ensure these problems do not occur. Currently the overhanging trees could obstruct the safe movement of high sided vehicles along the road and encroach parked cars.

Would you therefore please arrange for the vegetation to be cut back, within 14 days of the date of this letter.

Should you wish to discuss this matter, please feel free to contact me and I appreciate your cooperation in this matter.

Yours faithfully

[redacted]
