Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I write in support of application AWDM/0291/26 submitted by Worthing United Football Club to extend the footprint of its clubhouse to include a café.

This proposal represents a positive and sustainable development for the club and the wider community. The addition of a café will provide a valuable new income stream, helping to secure the long-term future of the club while enhancing the facilities available to players, supporters, and local residents.

As a not-for-profit organisation, any income generated will be reinvested directly back into the club, supporting grassroots football and contributing to improvements in the surrounding area. The development will therefore deliver both social and community benefits, strengthening the club's role as a local hub.

For these reasons, I fully support this application.
