Reasons for comment: - Other

Comments: I support this development as I believe this will provide a positive impact on the local community. The development is intended to serve members of the community who attend youth football games. Is it not anticipated to increase traffic to this area as the intended audience are already in the area. The clubhouse will provide a welcoming environment for opposing teams as well as supporting our local Worthing united youth teams. The development will also encourage participation in local football and other activities which helps support healthy

active lifestyle. The team currently lack any shared spaces to interact with other local teams off the pitch which limits interaction, particularly in poor weather. The clubhouse will therefore further support community cohesion, and the continued growth of Worthing United youth club. The team have an excellent reputation for inclusion, including girls teams and development teams, particularly for children with additional needs. The team have also demonstrated responsibility and ownership for the area, including litter clearance. Development of this clubhouse will further encourage this sense of ownership for the grounds.
