AWDM/0737/26
Address

Land South East Corner Of Amberley

I wish to object to this application for the following reasons.

- 1) It is outside the built up area of Worthing, and therefore introduces unwanted commercial development into a countryside setting.
- 2) It is contrary to the Worthing Local Plan as it is a designated open Green Space separating the communities of Goring and Ferring.
- 3) It would prevent the development of the green corridors from the coast to the South Downs National Park, envisaged by the Council's Vision For Nature initiative.
- 4) Worthing is already deficient in open green spaces, and this proposal would further erode what little space is left.
- 5) There is no mains water that would be required to provide proper toilet and washing facilities, and no mains power.
- 6) The application is for an ad hoc collection of vehicles, installations and features, including flag poles, which clash with the rural nature of the setting and damage the attractive nature of the Green Gap.
- 7) The Goring Gap is enjoyed by visitors and local residents as a quiet, unspoilt and attractive amenity with extensive views to the South Downs, and is highly valued by the people of Goring and Worthing for those reasons. This application, if allowed, would introduce the drinking of alcohol into the evening, an increase in traffic, and overnight camping all of which would cause significant damage to the biodiversity of the environment, and the unique nature of the Goring Gap which is greatly enjoyed by all who visit.

PLEASE REFUSE THIS APPLICATION.
