Good morning. I have been unable to submit via the website so please find comments on planning application AWDM/0737/26

I object most strongly to the above planning application on the following grounds:

This is a designated green space and a vital part of the local community. It is the only green space in a heavily developed area, the only green gap along an overdeveloped coast line and as such must be retained for the health and well being of the community and the local wildlife, flora and fauna.

It is an important area for biodiversity and wildlife which must be protected

The application is contrary to the Local Plan and as such should be rejected.

There are currently bye laws in place to prevent the overnight parking of mobile homes/camper vans on the sea front. A campsite sends out entirely the wrong message. Additionally, it is not a suitable place for a campsite as it is in close proximity to dwellings on Aldsworth Avenue.

All previous applications have been rejected on the grounds that the agricultural land must be retained and this situation is unchanged.

The development will cause noise and light pollution as well as an increase in traffic for residents in the surrounding area.

This is a precious resource to both locals and visitors who choose not to go to destinations which are commercialised but instead wish to enjoy the tranquility of nature and to educate their children in this appreciation. Commerical activities and excellent catering are all available a short walk away

In summary, I am totally opposed to this development which will detract from the tranquility of the area and harm wildlife and biodiversity.
