Subject: Planning Application AWDM/0291/26 – Letter of Support

To: gary.peck@adur-worthing.gov.uk <gary.peck@adur-worthing.gov.uk>

Dear Gary,

I am writing to express my support for planning application AWDM/0291/26, for the proposal to include a cafe within the new clubhouse development at Hill Barn.

I believe the addition of a cafe would be a positive asset for the local community, not just for members of Worthing United but for all park users and local residents. A cafe would provide a welcoming space for families, walkers, and visitors to the park, helping to make Hill Barn a more inclusive and well-used community space for all.

Worthing United is a not-for-profit organisation, and that any income generated from the café would be reinvested into the club, this means reinvesting back in our children's future for their love of sports.

In my view, the proposal will enhance the open space environment, encourage more responsible use of the facilities, and support a local community organisation that provides significant benefits to young people and residents in the area.

I therefore fully support the inclusion of the café within the clubhouse development and hope the application will be approved.

Yours sincerely,

Rachel Young & Walter Bickley
