Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Privacy Light and Noise
Comments:	Dear Sirs My concerns for the proposed development are as follows; The height of the property with the existing design of dorma window will overlook our property causing severe loss of privacy. Possible solution is by installing windows within the contour of the roof slope. Historicaly garages are no longer used to keep ones car in but are used for storage. With the loss of the car park we have enourmous parking problems in this area. Therefore the new properties will inpacked on the parking problem even more. I suggest instead of garages, car ports, are built instead. This way the space can not be used for 'storage' but for car use only. yours sincerely Kevin Enticknap
