| **Reasons for comment:** | - Trees and Landscaping |
| **Comments:** | The reason that I purchased my home was the fact that the environment was green , there were green areas and the trees would always be a part of the area due to their preservation. It enhances the living environment and makes it a more pleasant place to live. If the trees are to be cut down due to any other reason than disease then why buy the property if the trees are in the way. Once you cut one down, they will all end up being cut down and spoil the development. The trees were here when homes were built, therefore they should stay and keep the development as it was on plans. Don't spoil the area, it is nice as it is. |
