To whom it may concern

I do have some concerns still around noise, as my back garden is literally 2 meters from the flue but if it is only to be for 2 hours every month, I am okay with that. If however it does turn out to be on all the time then that might prove to be an issue, particularly in Summer.

I also have concerns about the filters in the flue, how often they will be changed and if they are likely to catch all soot particles before hitting the air.

I do appreciate they need to keep their staff healthy, but as I get older and use my garden more, I also like a bit of peace of quiet.

So at this point I have no major concerns, When they first put up the flue it was on 24/7 for 3 days hence the complaint.

So to summarise I am happy with the application on condition that it is only on for 2 hours every month, does not run overnight or on bank holidays and that the filters are changed on a regular basis and regular services take place.

Many thanks

Mrs J Marshall-Inns
