Application for Tree Works: Works to Trees Subject to a Tree Preservation Order (TPO) and/or Notification of Proposed Works to Trees in a Conservation Area

Town and Country Planning Act 1990 (as amended)

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Tree Location

Please provide the address of the site where the tree(s) stands (full address if possible)

Number

Suffix

Property Name

Address Line 1

Address Line 2

Address Line 3

Town/city

Postcode

Description of site location must be completed if postcode is not known:

Easting (x)

Northing (y)

If the location is unclear or there is not a full postal address, describe as clearly as possible where it is

(for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road')

What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?

☒ Yes

☐ No

Do you know the Tree Preservation Order reference number(s)?

☐ Yes

☒ No

Please indicate whether the reasons for carrying out the proposed works include any of the following.

If so, your application MUST be accompanied by the necessary evidence to support your proposals ([see guidance notes for further details](#)).

Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall

☐ Yes

☒ No

Alleged damage to property - e.g. subsidence or damage to drains or drives.

☐ Yes

☒ No

Are you wishing to carry out works to tree(s) in a conservation area?

☐ Yes

☒ No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order.

A sketch plan is also advised when notifying the LPA of works to trees in a conservation area ([see guidance notes](#)).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for the question 'Identification of Tree(s) and Description of Works')?

☐ Yes

☒ No

Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

Northern Car Park

Section 5

Cut back low lying vegetation along Western boundary to give 1 metres clearance from car park edge. Coppice the group of Elders to ground level. Prune clear from light columns to give 1 metres clearance where possible. Remove low limb from the park Ash tree in NW corner back to source. Cut back low lying vegetation along Northern boundary to give a minimum 0.5 metres clearance from car park edge. Crown lift Cypress tree group to 4.5 metres over car park. Crown lift the 3 trees within centre car park to 1.5 metres and remove old planting aid posts.

Eastern Boundary

Section 9

Reduce large Oak away from building to give a minimum of 2 metres clearance. Remove major deadwood. Crown lift Holm Oak to 3 metres over paths and pavement and 5.5 metres over highway, ensure 2 metres clearance from buildings. Fell Cypress tree to ground level. Prune large Lime away from building to give a minimum of 2 metres clearance.

Main Entrance

Section 11

Reduce Sycamore away from buildings to give a minimum of 1.5 metres clearance. Remove major deadwood. Remove co-dominant stem on Eastern Cherry back to source. Remove basal growth on Western Cherry. Reduce stem on path side back to first established growth point.

Works are part of a maintenance program to be started over the course of this year. Work would help maintain the health and safety of the site, clearing pathways and carriageways, clearing from buildings etc. Works would not be detrimental nor affect amenity values of the trees or area.

Section 5, Leyland Cypress: At present there is approximately 1.8m ground clearance. Would be removing the low stems leaning towards the carpark. Removing these would give 4 to 4.5m clearance.

Section 9, Holm Oak & Copper Beach: At present there is approximately 1 to 1.5m clearance from the building on the Holm Oak. Would be reducing the lower crown on the Western aspect by 1 to 1.5m, depending on growth point options to reach the minimum clearance of 2m. Clearance over path is at 2m at lowest point and 3m over highway at lowest point. Would be crown lifting over path by 1m and over highway by 2.5m to gain the required clearance.

At present there is approximately 0.5m clearance from the building on the Copper Beach. Would be reducing the lower crown on the NW aspect 1.5m, depending on growth point options to reach the minimum clearance of 2m.

Section 11, Sycamore: At present, the tree is touching buildings. Would be reducing the lower/mid crown on the NW and SE by 1 to 1.5m to reach the required clearance.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan; and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) – Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - marking all trees on the plan, but only numbering those to which you want to carry out work
 - showing the approximate distance between the application tree(s) and buildings
 - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Tree Ownership

Is the applicant the owner of the tree(s)?

- ☒ Yes
☐ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
☒ No

Declaration

I/We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Jane Newington
