Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

There is no overall change of use to the building function.

The proposed works include:

1. Windows - Installation of Secondary Glazing throughout the ground floor and 2 high level stairwell windows This does not include any other high-level windows, rooflights, lantern lights, and glazed bricks.
2. Windows - Installation of Double Glazing to a number of windows to the ground floor windows only.
3. External Doors - Replacement of Richmond Bar glazed doors.

Existing Use

Please describe the current use of the site

The Assembly Hall is used for part of Worthing Theatres, the Assembly Hall is one of Worthing's three key multi-purpose entertainment venues. Frequently hosting live bands; home to the Worthing Symphony Orchestra and the Wurlitzer Organ its acoustics make it ideal for music of all genres. Dances are also frequently held in the venue owing to the sprung dance floor while comedians favour it for having the largest capacity of the town's venues. Often used in a theatre style it can easily become a venue for exhibitions, conferences, antiques and collectors fairs.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

b) Designated sites, important habitats or other biodiversity features

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

c) Features of geological conservation importance

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
Windows - Installation of Secondary Glazing: The installation of secondary glazing applies only to the internal side of the windows on the ground floor and two high-level stairwell windows. This internal modification does not affect the exterior of the building, surrounding landscape, or any habitat that could impact biodiversity. The windows that are excluded from the secondary glazing works, such as rooflights, lantern lights, and glazed bricks, further demonstrate the limited scope of this intervention. Windows - Installation of Double Glazing: The double glazing will be installed in a select number of windows on the ground floor only, and these installations will be done in a like-for-like manner within the existing window openings. There will be no alterations to the external fabric of the building or its surroundings, and no new land disturbance will occur. This means there is no impact on any existing ecosystems or habitats. External Doors - Replacement of Richmond Bar Glazed Doors: The replacement of the Richmond Bar glazed doors will be confined to the existing door openings, with no expansion or alteration to the building's footprint or its interaction with the surrounding environment. Since this replacement involves like-for-like installation, there is no disturbance to any natural habitats or features of ecological importance.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- [ ] Mains sewer

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

◯ Yes
⊘ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- [x] Yes
- [ ] No

If yes, please provide details of their name, role, and how they are related:
