Subject: WB/11/0139/ADV – 30 – 32 Chapel Road, Worthing: Proposed fascia sign

Dear Ms. Barwick

As the site is within the Chapel Road Conservation Area, the application proposal will need to be statutorily advertised for 21 days as works affecting a building within a Conservation Area, and as part of this process the Council will consult the local amenity group, the Conservation Area Advisory Committee.

The requested additional information is required to enable the Council to carry out its statutory duties, and the information is therefore required before the application is registered, so that the particulars of the display of the sign in relation to 30 – 32 Chapel Road are made clear. The example submitted is of an existing fascia sign on a different property, which bears no resemblance to the site in question.

Kindly note that in advising you of the above, I can give you no assurance that consent would be forthcoming, however, if any objections are raised, I shall let you know of these and of whether amendments will be required before the application may be put forward with a favourable recommendation.

I would like to assure you, however, that as soon as the requested information is received, the application will be registered and considered as soon as possible.

Yours sincerely

Howard Barnes-Moss
Senior Planning Officer
Adur & Worthing Councils
01903 221348
