Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	Hi there, We are neighbours of the property and we welcome the plans to improve no.49. We support the extension of the property and creation of a great family home. We would like to flag two aspects of the proposed design for the Council's and owner's consideration; 1. The impact on privacy and feeling of being overlooked due to the size (width) of the window in the new first floor rear extension. If the width of this window was reduced we feel the feeling of being overlooked will be removed. 2. Potential loss of light on our landing and staircase. We're not sure if this will be a problem or not, but the new wall being built upon the existing flat roof extension on the side of no.49 will be close to and may obstruct the only source of natural light coming onto our landing, therefore making it dark. We make these comments with empathy as we altered our plans to extend no.47 to find something that worked for all neighbours.

Best regards,
Tom.
