

Development Management – Delegated Officer Report

Application Number: AWDM/0471/26 **Recommendation:** – APPROVE

Site: **Flat 19 Seabright West Parade Worthing**

Proposal: **Replacement UPVC Windows and Balcony door**

Date of Site Visit: 22/04/2026.

Neighbours Checked: Y

Additional Neighbours Notified: N

Site and Surroundings

The application site is located within a block of flats, Seabright, which is situated along West Parade on the southern side of Worthing. The surrounding area consists of various blocks of flats in a residential area. The application site is specifically Flat 19 of Seabright, which is situated on the fourth floor. The building is a modern block containing dark red brick elevations and white uPVC windows.

The site is not within a conservation area and is not a listed building. There are no TPO trees on the site.

Proposal

Planning permission is sought for the replacement of windows (and a door) along the east and south elevations on the fourth floor of the building (Flat 19). The existing uPVC windows would be replaced with new uPVC windows.

The shape, size and materials of the proposed windows are the same as the existing windows. The methods of opening are also proposed to be the same as existing. The glazing bars are to be on the outside of the windows.

Relevant Planning History:

Various applications for replacement windows at other properties within Seabright – All Approved.

Consultations

None undertaken.

Neighbour Representations

None received.

Relevant Planning Policies:

Worthing Local Plan policies (WBC 2023): SP1, DM5
National Planning Policy Framework (MHCLG 2024)
National Planning Practice Guidance
SPG 'Extending or Altering Your Home' (WBC)

Planning Assessment:

There is no objection in principle to extensions and alterations to residential dwellings within the built-up area. The key considerations are the effects on the visual and residential amenities of the locality.

Visual Amenity

The street scene consists of various modern blocks of flats with differing styles and heights.

In Seabright, various replacement windows have been installed, all of which largely match in terms of overall design. Across the block of flats, the windows appear largely uniform in terms of frame thickness, window subdivision, proportions and methods of opening.

The proposed replacement windows would match the general style of the windows and would be similar in terms of appearance and frame thickness. The replacement windows would be white UPVC to match the existing windows.

There would be no harm to the character of the building or the visual amenities of the wider street scene as a result of this application.

Residential Amenity

There are no additional or enlarged openings resulting from this application. Other than for some minor inconvenience during the fitting of replacement windows, the proposal would not have any detrimental impact on the residential amenities of neighbours.

Recommendation:

APPROVE subject to condition(s):-

1. Drawing Numbers
2. Standard Time Limit

Informative

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including

planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Is recommendation contrary to letter(s) of representation? N
