Customer objects to the Planning Application.

Comments:
I am very concerned that this application has an impact on the traffic levels of the A259. Most lorries access this via Church Road/Trafalgar Road which is the area where I live.

This link road is already over used and is a mainly residential road. All planning

applications within the part of the port associated with Brighton and Hove always consider the impact of extra traffic on this residential road. An extra 30 trucks a day with concrete and wood waste for processing will increase, noise, dust and disturbance to the residence in this road and all those who live nearby and have to use this road for access to their homes.
