Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I strongly object to this failure of the applicant to keep to the terms of the planning approval given. My objection appears to have been taken into account in your original planning decision, resulting in the ASHP position being lowered to ground level from the original request by the applicant. Now I see that the unit has been incorrectly installed about a metre above ground level, which in my view will cause increased noise to reach my nearby windows. The applicant can easily get the builder, who has installed incorrectly, to make good the work at no cost to herself, and I would like to see this requirement enforced. Thank you.
