Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Applicant: Eschmann Investments Limited (EIL)

Land Registry Titles: WSX274986 (Building "Eschmann House") and WSX272523 (Building "Operations Centre")

EIL is the registered owner of both properties identified above. The buildings are occupied by Eschmann Technologies Ltd (ETL), a trading subsidiary of EIL, which currently operates its manufacturing and warehouse facilities from Building "Operations Centre". The proposal seeks to consolidate all of ETL's activities within Building "Eschmann House". Parts of WSX274986 (Building "Eschmann House") also include 2 tenants. These are located in the blue area of the plan.

To enable this relocation, it is proposed to replace the existing glass-fronted reception entrance at Building "Eschmann House" with a roller shutter door suitable for goods deliveries and dispatch. Associated works include the provision of appropriate and safe delivery vehicle parking and manoeuvring space within the existing private car park directly outside the proposed loading area.

Access to the site is via a private road already used by large delivery vehicles serving both ETL and neighbouring businesses. The site lies within an established Business Park, surrounded by similar manufacturing and industrial uses. All works will comply with relevant building regulations, highway standards, and health and safety requirements.

Supporting Justification

The proposed development represents a minor alteration to an existing industrial building that is currently used for research and development, technical support operations, and office functions. The works are intended to enable the more efficient and sustainable use of the premises within an established and designated employment area. The modification from a glazed reception frontage to a roller shutter door is consistent with the building's setting and the wider industrial character of the Business Park.

The proposal accords with Policy 25 (Sustainable Economy) of the Adur Local Plan (2017) and Policy DM8 (Employment Development) of the Worthing Local Plan (2023), both of which promote the retention and enhancement of employment uses and encourage the effective use of existing business premises.

By consolidating Eschmann Technologies Ltd's operations within a single building, the proposal will improve operational efficiency, reduce internal vehicle movements, and support the long-term viability of the business within the local area. The existing private access road is already suitable for HGVs and delivery vehicles, ensuring there will be no detrimental impact on the public highway network.

Adequate on-site space will be maintained for parking, loading, and manoeuvring, in compliance with safety and operational standards.

Overall, the proposal is modest, well-contained within the existing site boundaries, and wholly compatible with the established commercial context of Lancing Business Park.

Change of classification of use is sought to a mixed Class E (g), B2, B8 use.

Has the work or change of use already started?

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Please refer to Net Biodiversity Statement attached

Note: Please read the help text for further information why developments may be exempt or not in scope.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
