Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I am writing in support of this application. As a local resident and the parent of a child who attends the nursery, I strongly support the proposed update to the Nursery Management Plan allowing up to 16 children to use the wildlife area at any one time. Access to the wildlife area is one of the most valuable aspects of the nursery's provision. Outdoor, nature-based learning makes a real difference to young children's development - building confidence, curiosity and physical activity, and fostering an early connection to the natural world. Allowing a slightly larger group to use the space at once means more children can benefit from it across the day, rather than the area being underused. Living close by, I have no concerns about the impact of this change on local amenity. It is important to note that this is a modest amendment to a management plan, not a physical alteration or an intensification of the use of the site as a whole. In my experience, the nursery's outdoor activities have never caused any noise or disturbance, and this proposal simply allows an existing, well-managed space to be used a little more fully. For these reasons I would be grateful if the council would approve this well-considered application.
