

WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Adur & Worthing Councils FAO: Finlay Gardner
FROM:	WSSC – Highways Authority
DATE:	28 July 2026
LOCATION:	165 Dominion Road, Worthing, BN14 8LD
SUBJECT:	AWDM/0409/26 Vehicle access.
DATE OF SITE VISIT:	n/a
RECOMMENDATION:	Advice

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This application is for vehicle access. The site is located on Dominion Road, a B-classified road subject to a speed restriction of 30 mph.

The applicant proposes a new vehicular access on to Dominion Road. The proposed access works will be subject to a licence obtained through the local Highway Area Office and constructed to a specification agreed with the local Highway Area Engineer.

There are no apparent visibility concerns at the proposed access point. From inspection of the plans, the parking area is suitable sized for at least one car. On-site turning does not appear achievable, so cars may have to exit the site in reverse gear. However, this is not anticipated to give rise to an adverse highway safety impact, owing to good forward visibility in this location. Neighbouring properties operate similar access arrangements with no known highway safety concerns.

The LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 116), and that there are no transport grounds to resist the proposal.

If the LPA are minded to approve the application, the following condition should be applied:

Vehicle Crossover – Minor Highway Works

The applicant is advised that in addition to obtaining planning permission that they must also obtain formal approval from the highway authority to carry out the site access works on the public highway. The granting of planning permission does not guarantee that a vehicle crossover licence shall be granted because the highway license process considers wider factors than are considered by the Highway Authority at planning stage.

Additional information about the licence application process can be found at the following web page:
