Comments: I would like to express my support for this planning application for a Gypsy and Traveller site.

There is a clear need for suitable and authorised sites for Gypsy and Traveller families. Providing appropriate accommodation through the planning system helps ensure families have access to safe living conditions and basic services, while also reducing the need for unauthorised encampments.

Well-managed sites can integrate successfully into the local area without harming the character of the surroundings. This proposal offers a practical and responsible way to meet accommodation needs.

For these reasons, I support the application and respectfully encourage the council to grant planning permission.
