Stance: Customer made comments in support of the Planning Application

Reasons for
comment: - Design

Comments: I walk down Gordon Road on a regular basis and I support this application because it will replace an unsightly metal garage with a nicely designed house in keeping with the existing property as well as the other dwellings in the road.

On top of this I think it will improve the area as there is a carpark near by which doesn't compliment the road.

Also the design of the new house looks like it is part of the existing house which means they compliment one another.

I'm also very happy this new build is being developed on a site which is not a greenfield site, which will add an extra house for Adur.

I understand the current occupants are residents of Shoreham and have been part of the Gordon Road community for years and this means they will be able to stay within the community.
