Councillors

I live at 152 Old Shoreham Road, Shoreham-by-sea, BN43 5TE, a near neighbour to where the proposed building of a large extension at 146 has registered a planning application. I would like to make you aware that the gardens in this road are **very** narrow and the intrusion of such a long, high blank wall on any neighbours garden should not be allowed. It totally takes away any daylight to kitchens and living rooms and shows that no consideration or thought to the quality of other peoples lives is ever thought about. Why does the extension need to be so large when it only seems to be for a study, or is there other motives here? (Note the plans showing sleeping accommodation.) I fully understand that this does not interfere with my accommodation but the environment and open area of gardens here for wildlife does affect me.

There is one other issue here and that is the ongoing problem we have with our overloaded sewage drains. We are constantly having to call out 'Southern Water' to clear the drains through but no sooner they are cleared it blocks again with constant awful smells. Again I know this is not your responsibility but it would not help matters if additional let or holiday accommodation was being thought about by the applicant.

I can only express my concerns on these matters and leave it to your own conscience to come to the right decision.
