Development Management – Delegated Officer Report

Application Number: AWDM/0010/24 Recommendation: Approve

Site: 45 Upper Kingston Lane, Shoreham-by-sea

Proposal: First Floor Extension over Existing Ground Floor Side Extension.

Date of Site Visit: 31 January 2024

Neighbours Checked: Y

Additional neighbour notification: N

Proposal, Site and Surroundings:

This application relates to a semi detached house on the west side of Upper Kingston Lane at the junction with Hawkins Crescent. The pair of houses are angled towards the junction and they have a catslide roof and double bay front gable detail. It has a lean to monopitched roof garage on the side.

The application proposes to construct a first floor extension over the garage. It will have a catslide type roof at the front with a flat roofed top disguised by a false pitch around the outside edge.

Planning History:

AWDM/1304/17 - Application for a Lawful Development Certificate for proposed single-storey side extension, hip to gable roof extension with rear dormer, front roof lights and obscure glazed side window.

AWDM/1322/17 - Householder application for permitted development for prior approval for single storey extension to rear of property measuring 3.6m from rear wall of the original house, maximum height 3.6m and height of eaves of the extension 2.9m.

AWDM/0573/21 - Proposed two storey side extension (No. 47) - approved and built

Planning Assessment

Principle

The relevant issues are the effects on the amenities of neighbouring residential occupiers and the effect on the character and appearance of the area.

Visual amenity

The house is angled towards the road junction and sits forward of its neighbour to the south. As a result, the side of the house is visible in the street and the proposed extension will be prominent. Its design is different to that on the other half of this pair of semi-detached properties but it has a subsidiary form and a false mono-pitched roof which runs around all sides of the extension to hide the flat roof behind. Due to the house angling towards the boundary at the rear, it will be closer than 1m at that point. However, there will be much more of a separation towards the front and it is not considered to result in harm to the street scene.

Residential amenity

Due to the rising ground, the site is on higher ground than its neighbour to the south, No. 43. That property has its garage on the boundary with No. 45 which helps to separate the buildings at first floor level. There are several first floor windows at the side of No. 43 but the separation distance is considered to be sufficient to avoid an overbearing impact or harmful loss of light. A first floor window proposed on the side of the extension will be obscure glazed.

Recommendation

APPROVE

Subject to Conditions:-

1. Approved Plans

2. Standard 3 year time limit
3. Materials to match existing
4. Obscure glaze 1st floor side window

Is recommendation contrary to letter(s) of representation N

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.
