LOCATION:	1 Liverpool Buildings, Liverpool Road, Worthing, BN11 1SY
SUBJECT:	NOTICE/0002/25 Application for Prior Approval for Proposed Change of use from commercial office (Use Class E) at first floor level to residential (Use Class C3) to create a 2 bed flat.
DATE OF SITE VISIT:	N/A
RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	£N/A

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This proposal seeks prior approval for the change of use from commercial office (Use Class E) at first-floor level to residential (Use Class C3) to form a two-bedroom dwelling. The site is located on Liverpool Road, an unclassified road subject to a speed restriction of 20 mph in this location.

Under the current General Permitted Development Order (GPDO), it is permitted development to change use from office (Class E) to residential (Class C3) subject first to prior approval being granted. As part of the prior approval process, there are a number of matters to be considered. This includes matters relating to highways and transport. However, the GDPO is quite clear as to what highways matter can be considered, namely whether the proposal is likely to result in a material increase or material change in the character of traffic in the vicinity of the site.

No traffic flow information has been provided with the current application; however, Class E uses tend to generate greater material movements than C3 residential. Therefore, the LHA does not anticipate that material movements associated with the site will exceed that of the existing.

No off-street vehicular parking provision is proposed – therefore, vehicular parking would have to be accommodated on-street or within nearby paid-for provision, as per the existing arrangement. Comprehensive parking restrictions are in place on nearby roads, prohibiting parking in places that would be detrimental to highway safety. The LHA does not anticipate that the existing nil car parking provision would result in a highway safety concern. However, the LPA may wish to consider the potential impacts on on-street parking from an amenity point of view.

Weight is given to the fact that the site is situated in a sustainable town centre location within walking/cycle distance of local services, amenities, and public transport links. Provision for the secure storage of bicycles has also been demonstrated.

In summary, the movements associated with Class E use have done so safely with no known safety highways concerns, and C3 residential uses are considered less intensive. West

Sussex County Council in its role as LHA has therefore considered the proposal on that basis. In principle, the current GPDO gives limited ability to consider wider highway and transport impacts beyond those set out. The prior approval is therefore considered acceptable in highway terms.
