Features

10 Year Anti Rot Guarantee

This Product carries the 10 year Anti Rot guarantee as long as the garden building is well maintained.

Strong Floor Bearers

Insulated Garden Rooms
72mm Wall Composition

12mm Cladding

12mm interlocking cladding provides maximum strength and durability.

45mm Framing

Thick, durable framing which ads extra suport to your walls.

16mm Shiplap+ Cladding

Mercia Patented Shiplap+ cladding has a unique duel profile designed to last! Each panel locks together to form a solid, weather proof board with ample runoff for rain-water.

Reflective Multi-Foil Insulation

Insulated with our Eco Quilt, not only will you stay cosy and warm in the winter. Eco Quilt even reflects the heat on hot sunny days providing an ambient room temperature great all year round.

Thick floor bearers provide extra support for the building and raise it off the ground, essential for protecting the building against damp and rot.

Safety Glass Glazing

This building has been fitted with EN 12150 certified safety glass for a safer, stronger building.

Made in Britain

All our log cabins are made here in the UK, by our skilled workforce.

Double Skinned and Insulated Walls

A layer of 12mm tongue and groove board, reflective multi-foil insulation and 16mm Shiplap+ cladding come together to form fully insulated, strong and robust panels.

EPDM Roof Covering

Features a waterproof synthetic rubber compound roof covering that will protect your roof for up to 50 years.

Stylish Gold Ironmongery

Features elegant gold handles and hinges with a mortice lock and key for added security.

Modular Design

Our modular design allows you to create your dream garden room in any style, size and layout.

Opening Double Glazed Windows

Features opening windows with double glazing as standard, to both insulate and ventilate your building.

Shiplap+ Cladding

Constructed using high quality timber, our Shiplap+ cladding offers a premium, weatherproof build with a stylish finish.
