Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

My proposal is entirely within the existing built footprint and affects only the building's façade, meaning no habitat is disturbed or modified.

Note: Please read the help text for further information why developments may be exempt or not in scope.

When the patio door was installed the builder disposed of all waste, brickwork. The window company disposed of the existing window.

When the windows are installed the double glazing company will remove and dispose of the old windows.

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

- ☒ Yes
- ☐ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

Details of the pre-application advice received

I submitted a planning application back in 2022. I heard nothing back and was advised by my window company, builder and building regulations that planning permission was not required. I have now been contacted by the above to say that I do in fact need to apply. Back in 2022 I did ask for assistance from the planning department but I was emailed to say they were too busy to help. I have been emailing Dawn a few times and it was only explained to me when I called her that having a flat gave me no alteration rights. I have since been emailing asking if what I intended to supply was correct as I didn't wish to find myself in the situation again but was told that she could not offer any advice I had to put the application in. Considering this process in costing a lot of money and delaying the input of my new windows, I thought I might have got some help.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.
