| **SUBJECT:** | AWDM/114/23/2 AWDM/0114/23<br><br>Application for Non-Material Amendment application for the proposed changes to the substations including raised substation, planting proposals and proposed railings. |
| **RECOMMENDATION:** | No Objection |

Thank you for consulting with us.

West Sussex County Council (WSCC), in its capacity as the Lead Local Flood Authority (LLFA), has been consulted on the above proposed development in respect of surface water flood risk.

We have the following comments to submit with regards to the non-material amendment. Please continue to consult the District Drainage Engineer.

As this application is specifically the localised raising of the substations above a modelled flood level, the LLFA have no objection to the non-material amendment.

Kind Regards

**Flood Risk Management Team**
