Comments

I support this application very much as the trees in No: 27 are causing damage to the garden shed in my garden as well as removing light from the greenhouse which has been in situ for more than 25 years.
It would also be appreciated if the Leylandi in the same garden could also be included in this application as the lower branches extend beyond the boundary fence, again causing damage to the shed and excluding light from the greenhouse.

Unless you indicate below you will not be allowed to speak at the Committee meeting:-

I wish to speak on the application at the Committee meeting – **YES / NO**
