Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	This is an object to the proposed plans of electing an enormous monstrosity in Sicily a small space. Firstly the addition of extra concrete will greatly impact on the already struggling groundwater and drainage issues. Secondly, In addition to the this it also takes away form the rear possible grassland that is greatly needed to absorb the ground water. Thirdly this concrete abomination is terrible for the local wildlife as they visit only my garden and 108 gardens as surrounding neighbours have also opted for concrete creating many drainage issues and a loss of the wildlife. Fourthly this huge unnecessary addition will drown my garden and 108 gardens in darkness no longer allowing natural growth of grass and various plant, vegetation, vegetable and spice beds. I am flabbergasted that this proposal has made it to neighbourhood consultation. To have an almost 10ft high and 4.5 meter width of brick to look at in this

Comments for Planning Application AWDM/0735/26

otherwise small borough is unthinkable. This is an absolute example of overdevelopment. Please check your own local guidelines and policies, perhaps send an agent to the property to view how little of the garden would remain should this go ahead and the affect it will have on the neighbouring properties. Not a single home in this postcode or indeed around the close has an extension larger than 3 meters and it may only be 2 of them not do they have loft conversions. These small bungalows with small gardens are not designed for this type of mammoth unnecessary extension. This can be done anywhere with any property that has a similar street renovation style but not here. Please send someone to see the local area to h understand what an awful impact this will have.

Kind regards
