Design & Access Statement for ATM Installation
E021451 ATM Cardtronics Cashzone

Mullberrys 141-143 The Gardens Southwick BN42 4AR

Introduction

This Design and Access Statement has been prepared on behalf of Cardtronics Cashzone in support of an application submitted for the installation of an Automated Teller Machine and illuminated signage.

The initial purpose of the proposal is to provide 24 hour banking facilities for customers of Mullberrys The Gardens Southwick.

As this installation is for an ATM within the existing external façade, some aspects such as "layout" and "Access" are of limited applicability.

Design Principles and Concepts

Design
The site is a Convenience Store in The Gardens Southwick. The installed ATM provides direct and unobstructed access and has been installed through the shop front window to the far right as a through glass installation. The existing security roller shutter has been modified to allow constant use of the ATM.

NCR 6625 ATM fascia with Cashzone polycarbonate black and green illuminated surround signage with illuminated white lettering and halo illumination. To the top of the ATM fascia is an illuminated green acrylic Cashzone sign. The ATM was installed on 18th October 2017

Design Principals
The ATMs is of a standard design as located in many Convenience Stores throughout the UK and is accepted as a necessary facility. There are a number of mandatory standards which apply relating to the position of the ATM, it's visibility, ambient lighting, building structure, security features, ATM anchoring and ATM safe security and strength.

Scale
The dimensions of the installation are:-
ATM fascia and surround signage has been set at a height of 564mm from the pavement level to the underside of the surround signage.

Surround Signage Height 1379mm. Width 866mm. in black and green polycarbonate with white internally illuminated lettering and halo illumination.

The display screen is carefully shielded from ambient lighting to prevent glare and reflection, ensuring a clear and sharp image is visual by both standing and seated users.

Planning
141-143 The Gardens Southwick is not known to be in a Conservation area and is not known to be a Listed Building.

The display screen is carefully shielded from ambient lighting to prevent glare and reflection, ensuring a clear and sharp image is visual by both standing and seated users.

The ATM has been installed at a suitable height in order that the cash dispenser can be easily accessed, in accordance with DDA regulations

Illumination
Surround Signage in black and green polycarbonate with internally illuminated white lettering “free cash withdrawals and balance enquiries” and “cashzone” with white halo illuminated boarder. Illuminated with Duralite PMS 368 illuminated LED tape.

The installation has been designed to anticipate and overcome the restriction that would prevent disabled persons from making full use of the service to be provided together with the needs of more vulnerable people from protection of attack and intimidation.

Appearance
The ATM is a modern design with a black and green halo illuminated surround signage with white internally illuminated lettering. Within the ATM fascia is an internally illuminated white and green acrylic sign 519mm wide by 235mm high. The character of the property is little affected by the proposal as the property carries larger fascia signage.

Community Safety
This site has a high level of pedestrian movement ensuring safe public spaces through natural surveillance.

Layout
The ATM has been installed at a suitable height in order that the cash dispenser can be easily accessed, in accordance with DDA regulations.

Landscaping
Due to the nature of the proposal, we feel the application will not benefit from any landscaping

Access
The installed ATM has good access for the public. Due to the flat surface to the frontage and its position within the frontage.

The installation has been designed to anticipate and overcome the restriction that would prevent disabled persons from making full use of the service to be provided together with the needs of more vulnerable people from protection of attack and intimidation.

The ATM is set at a height that makes it accessible for wheel chair users. Key 5 has raised markings for blind persons to identify the centre key.

Crime Prevention

Cardtronics Cashzone carry out an end to end solution using Cash in Transit (CIT) and engineering staff, our security managers consider the following for every installation deliveries, parking outside the unit and line of sight of the replenishment for the staff.

Cardtronics Cashzone believe that their standard working practices and the implementation of the above crime prevention measures help to provide a safe and sustainable development.

Conclusion

The installed ATM has the principal benefit to the community of providing cash on demand to the customers of Mullberrys 141-143 The Gardens Southwick.
