Dear Sir

## St Barnabas House
## Delays in granting planning permission for the Titnor Lane Site

I am writing to urge you to do what ever is possible to facilitate approval of this application. I understand that access to the site has been a stumbling block, wouldn't a roundabout for access to both the Hospice site and The Swallows Return help?

Having been a volunteer at St Barnabas for the last 10 years, I know the love, comfort and support which the Hospice gives to people who have life threatening diseases.

**The need for new premises is acute as our present abode is long outdated.**

In addition to our present services, the proposed new building will also give hope to the group who now' fall between' the children and adult groups, for whom we care.

I strongly support this planning application. The new Hospice will continue and also enhance the service it already gives to our community.

Yours sincerely

[redacted]

Bunny Burgess (Mrs)
