INSTRUCTION

A/2F.

Dear Councillor,

WB/07

Planning application 1495/Future St.Barnabas Hospice.

I wish to strongly support the proposed new building /site for St.Barnabas Hospice.The access is excellent. It is only comparatively a short walk from Goring Rail Station and the A259 700 bus Route. In addition it provides the peaceful surroundings which is vital for a Hospice, plus the facility to expand, which they may do so in the future.

In regard to the access from Titnore Lane, whilst there may be plans to improve the Lane, I can foresee no problems. There is a similar entrance, a short way up to/from the housing estate, which has more traffic than would come from the Hospice , and I cannot see that the limited traffic from the Hospice will cause any noticeable traffic or other problems. I use the Road/Lane regularly, as I live, as you will note from my address, in the vicinity and can speak from experience.

In view of the very definite support for our Hospital, I would find it utterly amazing if this Planning Application [after many years of looking for a suitable location] for a new Hospice fails to be approved by the Planning Authorities. I am sure you are aware that it is not only funded primarily from/by local contributions but is also widely supported by volunteers and the community.

I trust you will consider carefully and ensure that it will be approved with no further delay at the July meeting.

Yours sincerely,
