Dear Ms Jo Morin

Re planning application for the change of use at 37 Parklands Avenue.

I wish to object to the proposed above planning application for additional classrooms and multiuser games area in the grounds of the grade II listed building known as Court lands.

If this happens it will change a large area of people's lives. Increased noise , traffic, parking outside our property, taxis coming and going at already busy times.

The student numbers have increased significantly since the original application creating additional noise and disturbance in our previously quiet neighbourhood.

The additional huts to be used as classrooms so near properties is going to cause a lot of disturbance for those residents. The huts are completely out of character for such a lovely building.

I strongly object to the proposed application for additional classrooms when they have so many rooms inside the big house, and the multi games area when there is a leisure centre just around the corner in Shaftesbury Avenue.

Please can you acknowledge my email to confirm you have received it.

Kind regards

Mrs J Elms
