Dear sirs

re: Amended plans for AWDM/0444/17

I am writing to you to you because of the plans proposed by my neighbours to extend their house with a side and rear extension and a bathroom in the front of the house. My niece and nephew have both made separate objections to the first plans and to these new plans also. They have encouraged me to write to you myself. I should like to point out that at the time of writing I am only aware of the new plans through the emails that they received as I have not received any communication from your planning department.

I have lived here very happily for many years and have always been on good terms with all my neighbours but this has made me very upset and scared as I don't want to change this. I have no worries about the side and rear extensions as they seem very sensible for the family; it is, however, the building of the extension to the bathroom which worries me. It will take all the light from my porch and will make my house look like a little annexe to number 8. The extension will look heavy and out of place making the whole row from 1-8 out of order.

There are also other objections which my niece and nephew have pointed out to me on the plans. There is no proper party wall from the front doors as this wall was a garden type wall built to house the dustbins. There is a drain in the vicinity and I am unsure if digging footings there will disturb drainage to my home.

Thank you.

Yours faithfully

[redacted]

Valerie Stevenson
