

- 
- An architectural elevation drawing of a two-story building. The building features a central gable roof with horizontal siding. To the left, there is a smaller gable and a section with three square windows. To the right, a large chimney rises above the roofline. The facade includes several multi-paned windows, some with decorative lintels, and a central entrance with a small porch. The drawing is a line art style with light blue shading for the windows and a grey ground plane at the bottom.

This is a detailed architectural elevation drawing of a long, two-story building. The structure features a complex roofline with several gables of varying sizes and a prominent conical roof on the right side. The facade is characterized by a series of windows, many of which are shaded in light blue. Some windows are grouped together, while others are single. There are also arched doorways or large windows on the ground floor. The drawing is a line art with blue shading for windows and a grey ground plane.
