Dear Sir,

Planning consultation: Outline application for the demolition of the existing building and the erection of a one to nine-storey block of residential apartments, a commercial unit (Class E), with associated cycle parking and car parking

Location: 39 - 41 Brighton Road Shoreham-by-sea West Sussex BN43 6RE

Thank you for your consultation on the above dated 20 July 2025 which was received by Natural England on 20 July 2025

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

SUMMARY OF NATURAL ENGLAND'S ADVICE

NO OBJECTION

Based on the plans submitted, Natural England considers that the proposed development will not have significant adverse impacts on statutorily protected nature conservation sites.

Natural England's generic advice on other natural environment issues is set out at Annex A.

Sites of Special Scientific Interest

Based on the plans submitted, Natural England considers that the proposed development will not have likely significant effects on statutorily protected sites and has no objection to the proposed development.

Landscape Advice –

The proposed development is for a site within or close to a nationally designated landscape namely (South Downs) National Park.

Natural England has concluded that impacts on the nationally designated landscape and the delivery of its statutory purposes to conserve and enhance the area's natural beauty wildlife and cultural heritage of the park; and to promote opportunities for the understanding and enjoyment of the special qualities of the park by the public, can be determined locally by the local planning authority, with advice from its landscape or planning officers.

Natural England is not confirming that there would not be a significant adverse effect on landscape or visual resources or on the statutory purposes of the area, only that there are no landscape issues which, based on the information received, necessitate Natural England's involvement.

We advise that the planning authority uses national and local policies, together with local landscape expertise and information to determine the proposal. The policy and statutory framework to guide your decision and the role of local advice are explained below. Your decision should be guided by paragraph 189 and 190 of the National Planning Policy Framework, which requires great weight to be given to conserving and enhancing landscape and scenic beauty within National Landscapes, National Parks, and the Broads and states that the scale and extent of development within all these areas should be limited. Paragraph 190 requires exceptional circumstances to be demonstrated to justify major development within a designated landscape and sets out criteria which should be applied in considering this proposal.

Alongside national policy you should also apply landscape policies set out in your development plan, or appropriate saved policies.

The relevant local authority landscape or planning officers should be able to advise you based on knowledge of the site and its wider landscape setting, together with the aims and objectives of the area's statutory management plan. Where available, a local Landscape Character Assessment can also be a helpful guide to the landscape's sensitivity to this type of development and its capacity to accommodate the proposed development.

The statutory purposes of the National Park are to conserve and enhance the natural beauty wildlife and cultural heritage of the park; and to promote opportunities for the understanding and enjoyment of the special qualities of the park by the public. The Broads have additional purposes to promote their enjoyment by the public and protect the interests of navigation. You should assess the application carefully as to whether the proposed development would have a significant impact on or harm those statutory purposes.

Furthermore, [Section 245](#) (Protected Landscapes) of the Levelling Up and Regeneration Act 2023 places a duty on relevant authorities (which includes local authorities) in exercising or performing any functions in relation to, or so as to affect, land in a National Park, the Broads or a National Landscape (referred to in legislation as an Area of Outstanding Natural Beauty) in England, to seek to further the statutory purposes of the area. The duty applies to local planning authorities and other decision makers in preparing development plans, making planning decisions on development and infrastructure proposals, as well as to other public bodies and statutory undertakers in undertaking their functions. This duty also applies to proposals outside the designated area but impacting on its statutory purposes.

The National Park's planning or landscape officers may be able to offer advice in relation to the duty, including on how the proposed development aligns with and contributes to delivering the aims and objectives of the area's statutory management plan.

Sites of Special Scientific Interest Impact Risk Zones

The Town and Country Planning (Development Management Procedure) (England) Order 2015 requires local planning authorities to consult Natural England on "Development in or likely to affect a Site of Special Scientific Interest" (Schedule 4, w). Our SSSI Impact Risk Zones are a GIS dataset designed to be used during the planning application validation process to help local planning authorities decide when to consult Natural England on developments likely to affect a SSSI. The dataset and user guidance can be accessed from the data.gov.uk website

Further general advice on the consideration of protected species and other natural environment issues is provided at Annex A.

We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.

For any queries regarding this letter, for new consultations, or to provide further information on this consultation please send your correspondences to consultations@naturalengland.org.uk.

Yours faithfully

Richard Gibson
