16 January 2012

To James Appleton.

My concerns relating to the planning application ADC/0036/09 are

1. Safety - Extra traffic on service roads, not proper roads, may lead to accidents. Lots of children and old people. No proper roads lead to 'right of way' issues.
2. More Noise from cars at all times of days and nights.
3. Light pollution - from extra lighting and buildings.
4. Parking. Already a nightmare in this area.

I oppose planning applicatian because I feel more people at the back of wembley avenue will lead to even more rubbish in the alleys, more graffiti and mindless vandalism to cars.

Yours sincerely
