Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I am the owner and occupant of the adjacent property at 57 Connaught Avenue. I wish to make an objection to the placing of the Air Source Heat Pump in question as it represents a significant noise source near to two windows on my house. The report states that the unit has been planned to go on their side wall (facing my home) simply in order to reduce pipe runs internally. I'd like to suggest that if it was placed instead on the front wall of their house there would be no noise problem as it would be further away and would be facing away from my house. Thank you.

Kind regards
