82 Gordon Road

Shoreham by Sea

BN436WE

DEVELOPEMENT MANAGEMENT SECTION

REF: AWDM/0665/19

Dear Mr Barnett

Re the above referenced proposed development I have owned 82 Gordon Road which is a terraced property attached on the east side of No 80 for the last 11 years . We have south facing gardens and due to the nature of the buildings we only have direct sunlight to the rear of the property. I have direct light to my lounge window and side kitchen/diner door from approx 1pm -5pm the proposed extension will reduce that time to about 1.5 hrs . I have recently replaced my side door to a large single glazed one at a cost of £2000 to obtain more light, this will be totally irrelevant as there will be no light available.

The proposed outer covering is both dark and out of keeping with the character of these properties. These old buildings need careful consideration as the walls need the warmth of the sun to prevent damp and I am very concerned that this proposed extension will cause long term costly damage to my property. I do not object to a loft conversion as most of the residents in the road have done when requiring more space as this does not adversely affect the properties but this proposal will both damage my property and my quality of life.

Yours sincerely

Barbara Ferne

p.s. please note that although your letter was dated 1st May I only received it on 10th May
