Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Highway Access and Parking - Privacy Light and Noise
Comments:	1. Shared Drive Access & Safety Measures As the driveway in question is shared, I would appreciate confirmation that: - Access to the shared driveway will not be blocked at any time, ensuring continued use for residents and emergency services. - Proper health and safety measures will be in place during

construction, including clear signage and management of any temporary disruptions.
- The driveway and surrounding areas will be maintained and restored to their original condition once work is completed.

2. Privacy Concerns Regarding My Garden

Additionally, I am concerned that the proposed structure may overlook my garden and compromise my privacy. I kindly request to review the plans to assess the potential impact. If the structure does indeed allow direct views into my garden,
