I wish object to the ground floor extension planned adjacent to my house which is part of a terrace adjoining 14 Cobden Rd. I object due to the fact it will involve further invasion of my small garden necessitating builders accessing my property for no garden, removing my fence and builders working one metre inside my tiny garden. The house next door already has an outdoor extension the other side and the recent granting of a loft extension and dormer window which will overlook my garden. The area of the previous extension and the proposed extension/loft conversion with another new extension will exceed the footprint of the total original dwelling and destroy my chance of enjoying my home. I hope this planning application will be refused. Kind regards, M J Ensor
