Re Objection to Planning Application AWDN/0611/26
- Single Storey Rear Extension at 6 Hayling Rise
Worthing BN13.3AL

I wish to object to the above planning application
for a Single Storey rear extension

I have been a resident of the neighbouring
property for over 40 years. I am deeply
concerned that the proposed extension would
negatively affect the enjoyment of my home.
Having lived here for so long, I value the current
character, light and openness of the area, and I
would find the impact of this particularly
distressing, the extra noise, disturbance as well
as traffic/parking.

! Loss of daylight & outlook

The proposed extension, would extend significant
into the rear garden and, due to its size and
proximity to the boundary with property at
8 Hayling Rise, would reduce the amount of natural
light reaching my home and garden. I currently
have a small seating area outside where I
enjoy sunny afternoons - this development would
create an overbearing visual impact from my
garden and property

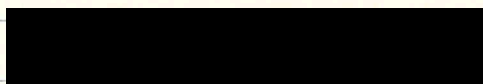

2. Impact on enjoyment at my home.

The proposal would have a negative impact on my enjoyment as the extension would create a sense of enclosure and reducing the openness that I currently experience in my rear garden.

3 Scale & design

I also have concerns, the drainage for the proposed extension as it is so close to the boundary with my property.

Yours faithfully

MRS ANNE JEWSON
