Dear Sir/Madame

I have been unable to log my objection on-line for the above application in regards to an area within Goring Gap, therefore please find my comments below which would be grateful if you could include in your decision / planning process.

Planning Application AWD/0737/26

It saddens me to see this application and strongly object to the request.

- With the land situated, between the sea and the National Park, it provides an important break in housing, a dark area for wildlife and lungs to the conurbation along the coast. Which I feel needs to be preserved
- With the increasing threat of climate change and lack of rain fall I feel that creating a bore hole, will add pressure to precious ground waters and the long-term effect of this will cause irreversible damage – also looking unsightly, especially viewed from the National Park.
- I notice that the application does not provide details of the natural green energy – is this a windmill, solar panels – I think details should have been provided, anything could appear!
- Overnight parking is currently not allowed, by the council, on the road adjacent and there are good reasons for this. One of which is that there are no toilet facilities in the vicinity. There are some seasonal facilities on the other side of the cop open in the daytime, but these are not on site and someway away and feel that campers could use the adjacent woods.
- The request does mention mobile toilets and showers but again, no details have been provided, these are costly, will this happen / be maintained, especially with no mains water to the site.
- Shipping containers are not pretty at the best of times and having 2 onsite for storage will ruin an area that will damage the whole character, especially as viewed from fields.
- Bin storage? Again, no details provided, will they be like the useful bins provided by the Council for sweet wrappers or could be large unsightly industrial container bins.
- This area currently is very picturesque, and the thought of a 5m * 2.5m advertising eyesore trailer fills me with dread, will it be illuminated?

- I think it is important that we preserve this beautiful area that provides a quiet haven between Goring and Ferring with great character.
- This request would result in dominant / incongruous addition, out of character with the current scene.
- In my opinion, this area is worth preserving for future generations.
- The view from the National Park towards the Coast will be blighted, by this ill-thought-out request and view impacted / lost forever.
- In reverse the view from the Sea towards the National Park will be damaged and the whole character changes.
- This area provides the lungs to Worthing and Ferring
- There would be an increase the light pollution to this dark haven next to and seen from the National Park

I therefore strongly object to this application

Please can you confirm receipt and if I need to try again and add to the online portal please let me know.

Many thanks for your help

Kind regards

Anne Howes
