I wish to strongly raise an objection to the above proposal.
Any development of this site would be:

- Detrimental to the local environment particularly our birds; insects and our precious bat population.
- It would not be up holding of the local agreement by the council to maintain our green coastal spaces
- It would be a safety hazard due to cars turning into/out of the area (especially if children involved).
- The current scheme to develop a food and drink outlet would
- a) be a noise/social problem for the community and
- b) would open the doors (if permission given) for the housing/Nursing home development that Mr Dixon wishes to develop (Also if permission given for entertainment then the land could then be sold with development already in place)
- It is totally inappropriate to allow ponies etc to suffer (as entertainment) on this land.
- Solar panels does not make this a green project.

Yours sincerely,
Mrs Jacqui Hawkins
