OBJECTION

Planning Application AWDM/0737/26

I am unable to comment on the site,

Please accept this email as a formal OBJECTION
to all aspects contained in the above referenced application

The area should not be developed in any way
Inclusion of alcohol availability on this area could have serious danger regarding people entering and leaving. The current status of the area is scrappy and untidy spoiling the sight of the southern gap. Development of the area is not in keeping with the desire to maintain the gap, and degrades the environmental importance of the open area.

Thank you

Ruth Arnold
