Dear Mr. Barnett,

With reference to your letter dated 12th April 2010.

I would like to reiterate my objections to the following development, on the grounds of design and appearance.

I am concerned about the single storey projection at the rear of the building facing my property; it appears that this design feature would only be used to facilitate a balcony.

I do appreciate that a balcony is not shown in the plans, but this design could easily be developed into a balcony at a later stage.

I request that the original planning restriction that was placed on this development remains regarding the addition of a balcony. Also, that the rear first floor windows remain the same size as per the plans.

Yours faithfully,

[redacted]

Mr. Alan Keates
