Re development application on land
1-28 THE HAVEN BRIGHTON ROAD
LANCING.

I think this land should belong to the HAVEN, surely it should be the front Garden of the property.

This land must have been returned by the Council in the 70's for road widening of 259. when the HAVEN was built.

It seems absurd that someone has managed to purchase this piece of land at a reduced price and then apply to build ten flats on it, what on earth were the Council thinking about to have allowed this happen, did they think people living in the HAVEN would be delighted, I live east of the building and I'm appalled by the thought of it.

I would ask you to think again, and be honest. How would you feel if this were to happen to you?
